SELF CUSTODY LABS

Bitcoin inheritance instructions

> **Never write seed phrases, PINs or the passphrase in this letter. It tells your heirs where the keys are and how to use them, not what they are.**

WHAT YOU ARE INHERITING

A ___ of ___ multisig bitcoin wallet. Any ___ of its ___ keys can move the funds.

WHAT YOU NEED

1. Two of the hardware wallets, or their seed phrases.
2. The wallet descriptor, kept at: _____
3. Sparrow Wallet, from sparrowwallet.com.

HOW TO REACH THE FUNDS

1. Download Sparrow Wallet and check its signature.
2. Choose File, Import Wallet, and load the wallet descriptor.
3. Connect the first hardware wallet and check Sparrow recognises it.
4. Connect the second hardware wallet.
5. You can now see the balance and send transactions.

CONTACTS

LAWYER: NAME AND PHONE

TECHNICAL HELPER: NAME AND PHONE

WHERE KEY 3 IS

IF SOMETHING GOES WRONG

- Never give seed phrases to a "recovery service": they are scams.
- Contact the technical helper above before doing anything.
- Bitcoin cannot be "hacked": if the seeds are safe, the funds are safe.
